PULVERMACHER'S PATENT MEDICO-GALVANIC CHAIN-BANDS.—Most Physicians of the present day are aware of the great curative powers of Galvanism (for the well-regulation of Local circulation) when used on the diseased parts of the body; and the profession generally will, therefore, be glad to learn that all these beneficial results are obtainable by the application of PULVERMACHER'S PATENT MEDICO-GALVANIC CHAIN-BANDS. These are composed of One Hundred Medical and Galvanic Elements, so arranged as to the superabundant curative effluence of Galvanism is regulated and rendered perfectly safe and manageable. They are worn round the diseased part of the body, and will be found to be the most convenient, economical, and effective Galvanic Apparatus ever offered to the public. Price, One Guinea and upwards. Pamphlets, containing Reports of Cases, Testimonials, and Opinions of the Press, sent free by post on application to J. L. PULVERMACHER, Galvanic Establishment, 194, Regent-street, London.

NERVOUS DEBILITY.—Just published, a Pamphlet, containing Extracts from those remarkable Treatises, just given in the MEDICO-GALVANIC SYSTEM FOR SELF-APPLICATION," Price 1s., which have created such a sensation in the Medical World, and upon which the most eminent Physicians have pronounced in favour of the Galvanic Chain. They are ingeniously constructed, and should be worn so as to encircle the part affected, and are recommended for Rheumatism, Paralysis, &c. They are regarded by Practitioners as a valuable and convenient means of applying the continuous voltaic current. And as page 45 states, "In Amaurosis, or Torpidity of the Womb, considerable benefit is obtained by passing a current through the pelvis, from the sacrum to the pubis." Page 41, "In Cronic Rheumatism, Stiffness, and Rigidy after Sprains and Bruises, and in Chorea, and some other allied Convulsive Disorders, considerable benefit is obtained from their employment. I am acquainted with several remarkable successful cases of their use. Dr. Addison and Dr. Golding Bird have also found them useful."

PULVERMACHER'S EXTRACT No. 8.—PARALYSIS, &c.—Dr. GOLDING BIRD writes in the *Lancet* (vol. ii, xvii, 1851),—"The ingenious Galvanic Chain of Dr. Pulvermacher has attracted so much attention, that on account of its value in Paralysis, &c., I think Medical men are not required to develope the physiological phenomena or therapeutical effects, as the laborious researches of Dr. Marshall Hall, have long since proved; and it is only to the mild continuous voltaic current that we must look for a vast development of therapeutical influence. . . . I cannot indeed, too strongly impress upon those who have to treat a case of old Paralysis, the great importance of allowing a voltaic current to traverse the palsied limb—nutrition is thus increased—its waste and emaciation prevented, and the probabilities of a permanent cure are very great. The action of the chain can be increased or diminished at will."

PULVERMACHER'S EXTRACT No. 30.—NEURALGIA.—Sir C. LOCOCK, Bart., Physician to Her Majesty, writes in the *Lancet* March 6th, 1858:—"I have sent water decomposed by the Chains, even after the current had passed through the body." And he recommends them for Neuralgia, Rheumatism, Paralysis, &c., in which complaints he has found them to act with much certainty."

PULVERMACHER'S EXTRACT No. 10.—RHEUMATISM.—DR. ALTHAUS, Physician in his 15th p. 364, says, "I was a martyr to rheumatism, until I got the Chain, &c., and found relief from Pulvermacher's Chains, which threw a sensible continuous current of electric fluid through the parts affected."

PULVERMACHER'S EXTRACT No. 21.—NERVO-DEBILITY. DR. LOBB, in his "Nervous Affections," (page 306) says, "In the administration of Galvanism to the jaded nervous system, I am accustomed to commence with a Pulvermacher's Chain, from its ready portability, enabling it to be carried to the patient, if required, without trouble, &c."

PULVERMACHER'S EXTRACT No. 7.—SCIATICA.—DR. THOMPSON, in his "Domestic Medicine," pp. 216, 303, and 444, says, "Lastly, I can speak from my own experience, that the chain confers speedy ease in Neuralgia, and I have seen wonderful cures effected by them, in Rheumatism, Sciatica, Ear-ache, and Nervous pains."

PULVERMACHER'S EXTRACT No. 24.—THE DOLOROSO.—DR. JAMES, in his "Treasury of Medicine," states, p. 909, "I have found Pulvermacher's Chain relieve Face-ache, when every other remedy had failed."

PULVERMACHER'S EXTRACT No. 19.—HEAD-ACHE.—MRS. COLIN MACKENZIE, in her "Six Years in India," p. 273, says, "The Naib of Bahoor came to pay his respects, and wore a pretty turban of white, gold, and red. He was suffering dreadful head-ache, and C. cured him with 'Pulvermacher's Electric Chain.'"

£10,000 DAMAGES.

The French and English Courts condemned C. Meinig to pay this sum to the Inventor, J. L. Pulvermacher, for infringing his patent rights. The correctness of this statement may be ascertained by referring to the Register Office. The order as made out by Judge Crowther. Counterfeiters will, therefore, take caution. Note are genuine Chain Bands unless the Inventor's *fac simile* only is stamped on each Buckle.

Chains 5s., 10s. 6d., 18s., and 22s., according to power. They can be obtained by sending a P. O. Order, made payable at the General Post Office.

LAST NIGHT'S TELEGRAMS

THE WAR.

(BY MAGNETIC TELEGRAPH.)

BATTLE OF SOLFERINO.

Some French Infantry regiments were nearly cut to pieces. The Piedmontese army suffered so severely that it is said to be incapable of forming a line of battle. The *Patrie* says the Emperor Napoleon had an aide-de-camp shot away. General Dieu was reported dead. The Austrians had seven or eight generals and very many superior officers wounded. General Greschke was killed. The Austrian commanders are greatly embarrassed by the conduct of their Italian troops.

THE EMPEROR'S QUARTERS REMOVED TO VALLEGGIO.

VOLTA, JUNE 30.—(Official Despatch.)—The Emperor leaves this morning to establish his head-quarters at Valleggio. His Majesty is in perfect health. The sanitary condition of the army is excellent. Prince Napoleon was expected to arrive at Valleggio in the course of the day.

The special correspondent of *Saunders* writes from Paris:—It is certain with respect to Romagna that the King of Sardinia refuses all sorts of dictatorship, or protectorate, and will confine himself to the sending off some officers charged to maintain order, and to satisfy certain exigencies of public safety, without in any way interfering with the rights of the Pope.

REINFORCEMENTS OF FRENCH TROOPS.

Enormous masses of French Soldiers are marching into Piedmont *via* Nice and Mount Cenis.

THE MASSACRE AT PERUGIA.

An American gentleman, Mr. Perkins, of Boston, his wife, and three ladies, narrowly escaped being massacred at Perugia.

RUSSIAN OPINION OF THE WAR.

The *Invalide Russe* says:—"Austria ought to think seriously of peace. She is endeavouring to secure the support of Germany and Prussia; but in acquiring powerful allies she might, at the same time, array against her still more powerful enemies. In that case Europe would be inundated with blood, and for nothing else than to preserve Lombardy to Austria, though that province can never more belong to her morally." The *Independence* also states the new English Ministry has addressed counsels of moderation to the German States, cautioning them, in language alike serious and firm, against the dangers of encouraging a policy which might lead to a general war.

FINANCIAL CONDITION OF GERMANY.

The *Constitutionnel* argues that Germany is not in a financial condition to warrant the confederation taking up arms. While the announcement of the new loan of 2,000,000*l.* produced tenders for five times that amount, even Prussia could but obtain very little superior to the amount for a loan five times less.

The Bavarian Government, too, which asked for 10,000,000 francs, only obtained 3,000,000.

DEMONSTRATION AGAINST THE JESUITS AT MILAN.

The people of Milan have made a threatening demonstration against the Jesuits, whom public rumour accuses of keeping up a secret correspondence with Austria.

THE SWISS TROOPS IN ITALY.

BERNE, JULY 1.—The Federal Council has made a communication to the Sardinian government on the subject of the ill-treatment suffered by the Swiss at Milan. The Federal Council has also instructed the Swiss diplomatic agents in England to enlighten public opinion as to the nationality of the foreign regiments in the service of the Pope and the King of Naples.—*Reuter's Telegram.*

MERCHANT SHIPPING.

Mr. Lindsay is to move for a committee of the whole house, to consider the question of removing the burdens and restrictions on merchant shipping.

WAR TREATIES.

Mr. Hadfield intends to move for copies of all treaties and conventions which engage this country to take up arms against any other country.

ROMAN CATHOLIC UNIVERSITY, IRELAND.

Mr. Maguire has given notice of a motion, drawing attention to the necessity of granting a charter to the Roman Catholic University of Ireland.

ADMINISTRATION OF THE ARMY.

No time is yet fixed for Sir James Graham's motion for an inquiry into the administration of the army and the relations of the Horse Guards to the war department.

RUMOURED REJECTION OF OFFICE BY MR. COBDEN.

The *Manchester Examines* believes Mr. Cobden will this day intimate to Lord Palmerston his decision not to join the new Administration. Mr. Cobden considers he can more efficiently promote the cause of progress and reform by not accepting office; but he will give government an independent support in all measures of which he can approve.

GAZETTE NEWS.

Lord Foley to be Captain of the Corps of Gentlemen-at-Arms; Eeal of Ducie to be Captain of the Yeomen of the Guards; Sir W. Dunbar to be Keeper of the Privy Seal to the Prince of Wales; Lord A Page to be Chief Ebuerry to her Majesty; Earl Spencer to be Groom of the Stole to she Prince Consort.

MONETARY AND COMMERCIAL.

CITY, FRIDAY EVENING.—The Funds retain great firmness. The Railway Share Market exhibits a further advance. All other markets remain very firm.

HOUSE OF LORDS—YESTERDAY.

RED SEA TELEGRAPH.

On the motion for the third reading of the Red Sea and India Telegraph Bill,

Lord STANLEY of ALDERLEY explained the circumstances under which a government guarantee should be given to a private company.

Some remarks were made on the same subject by

Earl GRANVILLE and the Earl of DERBY, after which the bill was read a third time, and passed.

ATTORNEYS.

The Lord CHANCELLOR introduced a bill diminishing, by two years, the period during which articled attorneys are compelled to serve, when they had previously graduated at either university.

APPOINTMENT OF MR. BLACKBURNE.

Lord LYNDHURST attended the proposed appointment of Mr. Blackburne to the vacant judgeship. He bore testimony to the great knowledge and eligibility of the gentlemen, and his eminent qualifications for the office.

Lord CAMPBELL said he had not been influenced in making the appointment by any consideration but that of the fitness of Mr. Blackburne.

The appointment was further justified by Lords WENSLEYDALE and GRANWORTH.

VOLUNTEER RIFLE CORPS.

Lord VINIAN having inquired what were the intentions of the government in reference to the Volunteer Rifle Corps,

The Earl of RIPON gave an explanation similar to that made by Mr. S. Herbert in the House of Commons.

The Duke of NEWCASTLE made some observations to the same effect, and, after a brief discussion the subject dropped.

NAVAL EXPENDITURE.

Lord BROUGHAM inquired whether the report was true that the Ministry intended to increase our naval expenditure, and took occasion to introduce a series of remarks touching the present war in Italy.

The Duke of SOMERSET declared that no exertions would be spared to place our navy on a proper footing. He entered at some length into the details of the subject, declaring it was the intention of the present government still further to extend the efforts of their predecessors, both in the building of ships, and still more in taking steps for manning them.

The Earl of HARDWICKE declared that the country could not be considered safe without three fleets—one in the Channel, another in the Mediterranean, and the third in the German Ocean.

The Earl of ELLENBOROUGH alluded to the preparations made by the Emperor of the French, who would not rest till he had carried out the projects of the first Napoleon, and from whom an invasion of this country might be expected when he had exhausted the power of Austria.

Their lordships adjourned at 7.30.

HOUSE OF COMMONS—YESTERDAY.

Mr. Cobden took the oaths, and his seat for Rochdale did Lord Bury and Mr. M. Gibson, after their respective re-elections.

VOLUNTEER RIFLE CORPS.

Sir J. SHELLEY asked the Secretary of State for War whether her Majesty's Government adopt the views of the late Administration with respect to volunteer corps, and whether they will be disposed to supply a sufficient quantity of arms.

Mr. S. HERBERT said the present Government intended to carry out the views of their predecessors with regard to rifle corps. Arms will be supplied to twenty-five per cent. of the volunteers. The principal conditions required were a safe locality for practice, and military inspection.

In reply to a further question, Mr. S. HERBERT no application had been made for arming rifle corps in Ireland; the present set only referred to England, and an alteration would be necessary for Ireland.

KINGDOM OF OUDE.

Mr. KINNAIRD asked the Secretary of State for India whether the proclamation confiscating the soil of Oude to the Crown is being acted upon to that the whole rights of the Talookdars have been restored in many instances those of the peasantry are considered to be forfeited.

Sir C. WOOD no further confiscation was in progress, the Talookdars having sent in their submissions.

ARREST OF MILITARY COMMISSARIES.

In reply to Mr. T. Duncombe,

Lord J. RUSSELL said there would be no pressure

strong objections to the production of the figures made by the military commissaries sent to the head-quarters of the French, Austrian, and Sardinian armies.

RETURNED MILITARY OF MR. GILPIN.

On the motion for adjournment till Monday

Mr. STANLEY called the attention of the house to a statement made to that house, and at a public meeting at Northampton, that an offer had been made to Mr. Gilpin by the agents of the late government to influence his vote in Parliament, and called upon the Secretary of the Poor Law Board to communicate letters referred to by him, with the name of the persons from whom they originated, to the house. Mr. Dennis had stated that the offer was not a pecuniary one, but related to an appointment. That offer was said to have come from a lady, and held out the prospect of a colonial governorship if Mr. Gilpin gave his vote for Lord Derby. As Mr. Gilpin had made political capital out of the affair, it became necessary that further inquiry should be instituted, and that the house should be enabled to judge whether the charge was true or false.

Mr. GILPIN could only repeat what he had already said, that an offer had been made to him, tending to bind his political conduct; that he could not trace it to the agents of the Conservative party, and that he had not intended to pursue the matter further; and he was surprised that a gentleman in the position of Mr. Stanley should require him to give up the name of the lady under such circumstances, which he declined to do.

Mr. PALK, in reference to the charge made by Mr. Stanley, that the late elections had been improperly influenced by the Conservatives, called upon him for a substantiation of the truth of the charge.

Mr. CLAY thought such a matter ought not to be treated seriously. If such an offer had been meant in earnest, it would not have been made to Mr. Gilpin.

After some remarks from Mr. BRADY, the matter dropped.

INDIAN LOAN.

Mr. CRAWFORD asked the late Secretary for India if he was aware, when he proceeded on Thursday, the 21st of April last, to receive and adjudicate upon the tenders invited to be sent in for the Indian loan, of the fact of the Austrian *ultimatum* to Sardinia having been made known to her Majesty's government on the previous evening by a telegram from Vienna, and also by a written communication from his Excellency the French Ambassador to the Secretary of Foreign Affairs. As the market was greatly influenced by the last news, it ought not to be withheld at such a time.

Lord STANLEY said neither himself nor any one else engaged in the negotiation of the loan, or of the Indian department, were aware of the intelligence respecting the Austrian ultimatum, until the tenders for the loan were finally adjudicated on. This was done at one in the afternoon. The ultimatum was communicated at a Cabinet Council for the first time at four the same evening.

ROMAN CATHOLICS IN THE NAVY.

Mr. HENNESSY asked Sir J. Pakington what steps the late Board of Admiralty had taken with reference to the complaints which had been submitted to the board respecting the treatment of Roman Catholic sailors in the Royal Navy.

Sir J. PAKINGTON replied that he had written to Lord Derby on the subject of the late memorial addressed to him, admitting that Roman Catholic sailors were not upon the same footing with soldiers of the same religion, and that they ought to be so placed. He further showed that the majority of the complaints were well founded. The impending change of the Government only prevented his conceding such points as could fairly be allowed.

Mr. NEWDEGATE warned the house that this was but the first of a series of combined attacks upon the Established Church, against which it behoved them to be on their guard.

DIVORCE.

Mr. E. JAMES asked the Attorney-General if it is the intention of her Majesty's government to bring in any measure to remedy the delay which now exists in the trial of causes in the Matrimonial and Divorce Court, and to direct his attention to the arrear of causes now existing in that court.

The ATTORNEY-GENERAL showed that the actual business now before the court was not to be taken as a proof of what it was likely to be hereafter, as many of the causes now under trial referred to circumstances which occurred many years ago. It was, however, in contemplation to give additional strength to the court.

The motion for adjournment till Monday was then agreed to.

NEWSPAPERS.

On the motion for the second reading of the Newspaper Bill,

Sir G. C. LEWIS said he should not oppose the motion, reserving his opinion on several points, especially that of doing away with the registration of newspaper proprietors.

The bill was then read a second time.

JURY TRIALS, SCOTLAND.

The Jury Trials (Scotland) Act Amendment Bill was also read a second time.

WEIGHTS AND MEASURES.

Mr. JOHN LOCKE obtained leave to bring in a bill amending the law relative to weights and measures.

The house adjourned at a quarter-past six, p.m.

LATEST NEWS.

IRISH TIMES OFFICE,
Saturday, Noon.

(BY MAGNETIC TELEGRAPH).

LATEST TELEGRAMS.

THE WAR.

Paris, Saturday.

The *Moniteur* contains the following telegram:—

Valeggio, Friday.

THE EMPEROR TO THE EMPRESS.—The whole army has passed the Mincio. The Sardinians have invested Peschiera. The reinforcements which I have received by the arrival of 35,000 men led by Prince Napoleon have enabled me to approach Verona without compromising myself in any way as I have left a corps d'armee at Goito to watch Mantua, and am about to assemble another at Bresciato watch the passage of the Tyrol.

The *Moniteur* also contains the following official bulletin of the Battle of Solferino:—

The force of the armies amounted from 350,000 to 370,000. The new artillery produced terrible effect. Its discharges reached the enemy at a distance whence the heaviest guns could not reply and covered the plain with dead. The loss of the French is 730 officers put *hors d' combat*, 190 of which were killed, and 13,000 privates killed and wounded. Among the killed are 7 Colonels and 6 Lieut.-Colonels; and among the wounded are 5 Generals.

VIENNA, JULY 1ST.

The Austrian Correspondent says, the loss at the Battle of the 24th ult. (as yet ascertained) is 1,900 killed, and 8,100 wounded. Further information will be published.

VERONA, July 1st, via Vienna:—The Emperor is in perfect health since the 24th June, there have been merely unimportant skirmishes between the outposts.

PARIS, SATURDAY, JULY 2.—There is an impression that the severity of the losses on both sides in the war will increase the prospects of any pacific diplomatic intervention that may be contemplated.

The *Times* publishes details by an eye witness of the massacre at Perugia, and devotes an article to the subject.

The standard of recruits for the Royal Marine Light Infantry has been reduced for growing lads of 18 to five feet four inches.

The Paris correspondent of the *Post* says the King of Sardinia has refused all dictatorship or protectorate in the Pontifical states, and will confine himself to sending officers charged with the maintenance of good order to satisfy certain exigencies of opinion, without in any way interfering with the rights of the Pope.

THE EMPEROR OF AUSTRIA.

The *Times* correspondent at Vienna telegraphed last night that the Emperor will probably remain in Italy. The Minister for Foreign Affairs has just left Verona.

FINANCES OF THE SMALL GERMAN STATES.

The *Times* states the house of Rothschild, at Frankfort, has taken a new Hesse Darmstadt loan of 3,000,000 guilders at 93. The Grand Duchy of Baden is also about to issue 2,000,000 guilders at 4 per cent. Railway bonds at 74.

THE NEW AUSTRALIAN MAIL.

The tenders for the Panama route were declared yesterday. The Peninsular and Oriental Company have not tendered, but the Royal Mail Company have. The result will not be known for several days.

MR. COBDEN AND THE CABINET.

Mr. Cobden has declined to accept the Cabinet seat which was reserved for him at the formation of the present Administration. The *Post* says that Mr. Cobden came to the conclusion that the consistent purposes of his public life will be best promoted by his remaining an independent member of Parliament. In his capacity however it is to be expected that he will give a kindly support to the present administration.

The *Times* remarks that the liberal party will hear of Mr. Cobden's decision with great regret, and asks how are the middle classes to be represented if such appointments are thrown away. Mr. Cobden's presence and that of Mr. Gibbs in the Cabinet would have represented the substantial defeat of the old Whig monopoly offices, the men who could unite in their own persons the three qualities of parliamentary orator, popular leader and Cabinet Minister, would be no insignificant passenge at a time like the present to see a member of the Cabinet. Mr. Cobden's opinions would carry with them great weight, even though he might be controlled by his colleagues in the final case. It is, in the Crimean time, the functions of a neutralising element that are taken from the hands of a personally startling, and, it is thought, unsafe statesman. The *Morning Post* announces that the vacant office of President of the Board of Trade will be filled by the appointment of Mr. Gibson; the Cabinet will then consist composed of 15 members.
